Press Release

«DROMEAS completes special furniture projects for the European Commission»

Recently, technicians of DROMEAS company completed the installation of office furniture of commissars Geoghegan-Quinn office in Ireland, who is responsible for research, science and development in Berlaymon building in the heart of Brussels.

For the configuration of the space there has been used desk and conference table from the series Slim with surface in veneer dark wenge, of high quality just like all the materials used by our company, bookcases in veneer with glass - doors and aluminium frames, chairs of series LINE and sofas in colour beige leather.

It has been created a modern and functional space to accommodate the increased needs, which has the Irish Commissar at work, cooperation and receiving of high guests.
