Press Release

Dromeas participation in the international office furniture fair ORGATEC 2010 in Cologne Germany, was concluded with success. During the fair the company's booth was visited by numerous international companies which expressed interest in collaboration. Slim line, which is also the furniture choice of the European Commission, truly peaked the interest of everyone who visited. Of particular notice to the visiting companies were details such as the innovative inox frame, the surfaces from lacquer and glass in white color, as well as the modern design of the mobile partitions of this line. DROMEAS believes that this year's presence in the fair will be the starting point for the strengthening of the company's presence in the international market.
