

**Classification**

- A. Office desks
- B. Conference desks

**A. Office desks**

**A.1. Technical Data of Office Desks**

- A.1.1. All desk tops have a thickness of 25 mm and are made of double-side melamine film coated 3-layer chipboard E1. The modesty panels are 18 mm thick coated with melamine on both sides.
- A.1.2 All visible edges are covered with edge-banding material of 2 mm with suitable ergonomic finish, while the non-visible edges are covered with 0,45 mm thick material.
- A.1.3 Each desk has two polyamide feet to ensure the safest support.
- A.1.4 Auxiliary extensions that are placed on its large side are mounted with suitable metallic connection corners on the surface. Auxiliary surfaces that are placed vertically are mounted to the desk with a special strong metallic connection and they have a tubular metallic leg coated with electrostatic paint.
- A.1.5 It is optionally possible to attach cable management channels inside the modesty panel or under the desktop surface, as well as cable grommets for the routing of cables to the desktop.

Packaging 1 piece office desk FINESSE 1600 x 800 mm,
