**Press Release**

**DROMEAS keeps on going in Europe**

Following the recent award of exclusive coverage of the European Commission with office furniture for another five years and the continuing take-over of projects covering the needs of the German Army DROMEAS keeps on going in the European markets: in December 10, 2015 the European Organization for Nuclear Research - CERN commissioned to DROMEAS a project furnishing its facilities for a 3-year period, confirming thereby its satisfaction from the repeated supply of office furniture from our company, as well as the steady, continuous reinforcement of the presence of DROMEAS in Europe.
